

Don't lose the chance to put up to \$1,000 back into your pocket this year!

Participating in a commuter account is like receiving a 30% discount on mass transit and parking expenses.

How does a commuter account work?

A commuter account allows you to set aside pre-tax dollars for mass transit and parking expenses associated with your daily commute to work.

There are two types of commuter accounts: mass transit and parking. You have the option to enroll in one or both accounts. You choose a monthly election amount, up to \$270 for mass transit expenses and \$270 for parking expenses. The money is placed in your account via payroll deduction and then used to pay for eligible commuting expenses.

Why should I enroll in a commuter account?

If you take public transportation to work or pay for parking, you'll want to take advantage of the savings these plans offer. Money contributed to a commuter account is free from federal and state taxes and remains tax-free when it is spent on eligible expenses. On average, participants enjoy a 30% tax savings on their annual contribution. This means you could be saving up to \$1,000 per year on commuter expenses!

How do I use my commuter account to pay for mass transit and parking expenses?

You can use your Peak One debit card to pay for commuting expenses, or vouchers can be used to pay for transit tickets, passes, or to pay parking vendors.

Qualifying expenses

What qualifies?
