

Commuter Benefits

Do you want to save 30% on commuting costs? Participating in a commuter account can save you up to \$1,000 a year.

What are commuter benefits?

Commuter benefits are an account that lets you set aside money before taxes to spend on parking and public transportation to and from the office.

How does it work?

Participating in a commuter account is easy:

1. Choose the amount you would like to have deducted from your paycheck each pay period.
→ You can do this during open enrollment or at any time during the year.
2. Use your Peak One debit card to pay for eligible commuting costs.

What can it be used for?

Eligible expenses include things like:

-  **Public transportation**
Bus, ferry, subway, and train tickets or passes
-  **Parking**
Costs to park near your workplace or where you catch public transit
-  **Ridesharing**
Vanpool fees when there are six or more adult passengers
-  **Biking**
Certain costs to purchase or repair a bicycle if you use it regularly for work travel

Did You Know?

Commuter benefits are flexible to meet your needs:

- You can always change your contribution amount if your commuting expenses change
- You can opt out of contributing at any time
- Funds left in your account at the end of the year can usually be rolled over and used the following year

Sign up for commuter benefits and start saving today!
